

Business Question and Visualization Report

Date	4 october 2026
Team ID	XXXXX
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	5 Marks

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisation that provide insights.

Sample

1. Which states have the highest and lowest agricultural production?

o Visualization: Bar Chart – State-wise Production

2. Which crops contribute the most to total agricultural production?

Visualization: Bar Chart – Crop-wise Production

3. How does agricultural production change across different years?

Visualization: Line Chart – Year-wise Production Trend

4. What is the total cultivated area represented in the agricultural dataset?

Visualiztion- KPI total cultivated area

5. “Which agricultural season has the highest production in India?”

visualization: bar graph of season wise production

6. How is agricultural production distributed across different states geographically?

Visualization: Map – State-wise Production Map

7. How does production change when a particular state, crop, year, or season is selected?

Visualization: Interactive Dashboard with State, Crop, Year and Season Filters

8. Which crops have the highest agricultural production in India?

Visualization: Bar Chart – Crop-wise Production
